

CONSTITUTIONAL AMENDMENT FULL TEXT

Ballot Title: Prayer Back in Schools

Ballot Summary: Introduce prayer as a concept of mind, body, and spirit as wholeness in humanity. Prayer is a catalyst and support for guidance and stability during conflict and uncertainty. Restore hope, joy, and self-worth, eradicating bullying, inequality, and discrimination.

Article and Section Being Created or Amended: Article I Section III

Full Text of the Proposed Amendment:

From the Laws and Constitution, the First Amendment protects the right to free speech respecting religion. PBIS proposes creating a new constitutional amendment in support of the protection of freedom of speech. Prayer is not an expression of religion or denomination in this current climate. Prayer represents unity, an awakening, a release of one's self, and spiritual consciousness. PBIS presents the ideology that prayer is a devotion necessary to advance our children. We dispel the Church and State's antiquated practices, replacing them with family, culture, and diversity. We believe in all the violence and uncertainty in the educational system. Prayer Back in School is essential. Children suffer both mentally and spiritually, starting at home, in our communities, churches, and schools. If not addressed, the path can lead to further consequences from sex trafficking to suicidal thoughts.
